## SUMMARY

I am a hardworking and focused person. I have completed a Diploma in Computer Science Engineering and am now studying B.Tech in Information Technology and Engineering. I want to make my career in web development, especially in frontend development. I am known for being honest, and always doing my best. I keep learning new things and improving myself to become better day by day.

## Work Experience/Internships

### Java Programming Intern, In CodSoft

Aug 2024 (4 weeks)

- Grade Calculator for Students: Developed a Java program to calculate and display student grades accurately and efficiently.
- ATM Interface Development: Simulated an ATM system by Java Programming with features like balance inquiry, withdrawal, and deposit.
- Number Guessing Game: Created a Java-based interactive game for guessing random numbers with dynamic feedback.

### Web Developer Intern, In Campus Code

Jan 2025 (1 week)

- Portfolio Website: Designed and developed a personal portfolio using HTML, CSS, and JavaScript to showcase skills and projects professionally.
- Todo List App: Built an interactive Todo List application, allowing users to add, edit, and delete tasks easily.

## My Projects

### My Portfolio Website

- Fully responsive design across all devices.
- Sleek dark theme with smooth animations and interactive elements.
- Sections for projects, skills, and contact information.

### Netflix Clone UI

- Fully responsive design with dark theme and red accents.
- Navigation bar with options like Home, TV Shows, Movies, and Search.

### Spotify Clone UI

- Web-based music streaming platform with responsive design.
- Displays trending songs, albums, and artists with an interactive layout.

### BhojanBridge - Digital Seva For Real Hunger

- Frontend & UI development for a socially-driven web platform.
- Focused on clean, modern design with a user-friendly interface.
- Created during the AI Dev.Yudh Hackathon with a cohesive color scheme.

### Brainwv Autotech - Igniting Minds, Shaping Futures

- Frontend development for Brainwv Autotech, an automotive tech startup.
- Responsive design optimized for mobile, tablet, and desktop.
- Focused on performance, accessibility, and modern design aesthetics.

## EDUCATION
